To:

Here is the first section of the MOSS BOOK being the register of births, marriages and deaths in each family from the first generation in America. A copy of this register has been made for each member of the family, including the "little people" and their parents are asked to preserve their copies until they come of age and can appreciate them.

These pages of the MOSS BOOK cannot be preserved indefinitely unless they are placed in a post binder which can be purchased at any stationary store. A ring binder will not preserve them because the holes will tear out. The pages have been designed to be placed in a post binder.

At the end of the register there will be found ten blank pages to be used by each family in the future. These pages may be left at the end of the register or placed after the page showing any family group.

About two months from now I plan to put out to all holders of the MOSS BOOK a final correction sheet with any additional information you wish to furnish. Will you please send me your corrections and additions no later than March 15, 1955.

After the printing of these pages had been completed two prominent members of the Moss family were taken from us by death. You are therefore asked to make the following entries in your register:

Page	Ref.	Name	New Entry
46	7L	Walter Clark Moss	d. Dec. 16, 1954, 4:30 A. M.
47	7L	Walter Clark Moss	bur. Cedar Bluff, Annapolis
53	7S	Arthur Dorsey Moss	d. Nov. 17, 1954, 1:15 A. M.
57	7S	Arthur Dorsey Moss	bur. Baden, Md.

The next section for the MOSS BOOK will be a register of all of the records: colonial, state and original family records. The new section will fit into the same post binder it is hoped that you will purchase for this first section.

This page may now be removed and destroyed.

Sincerely,

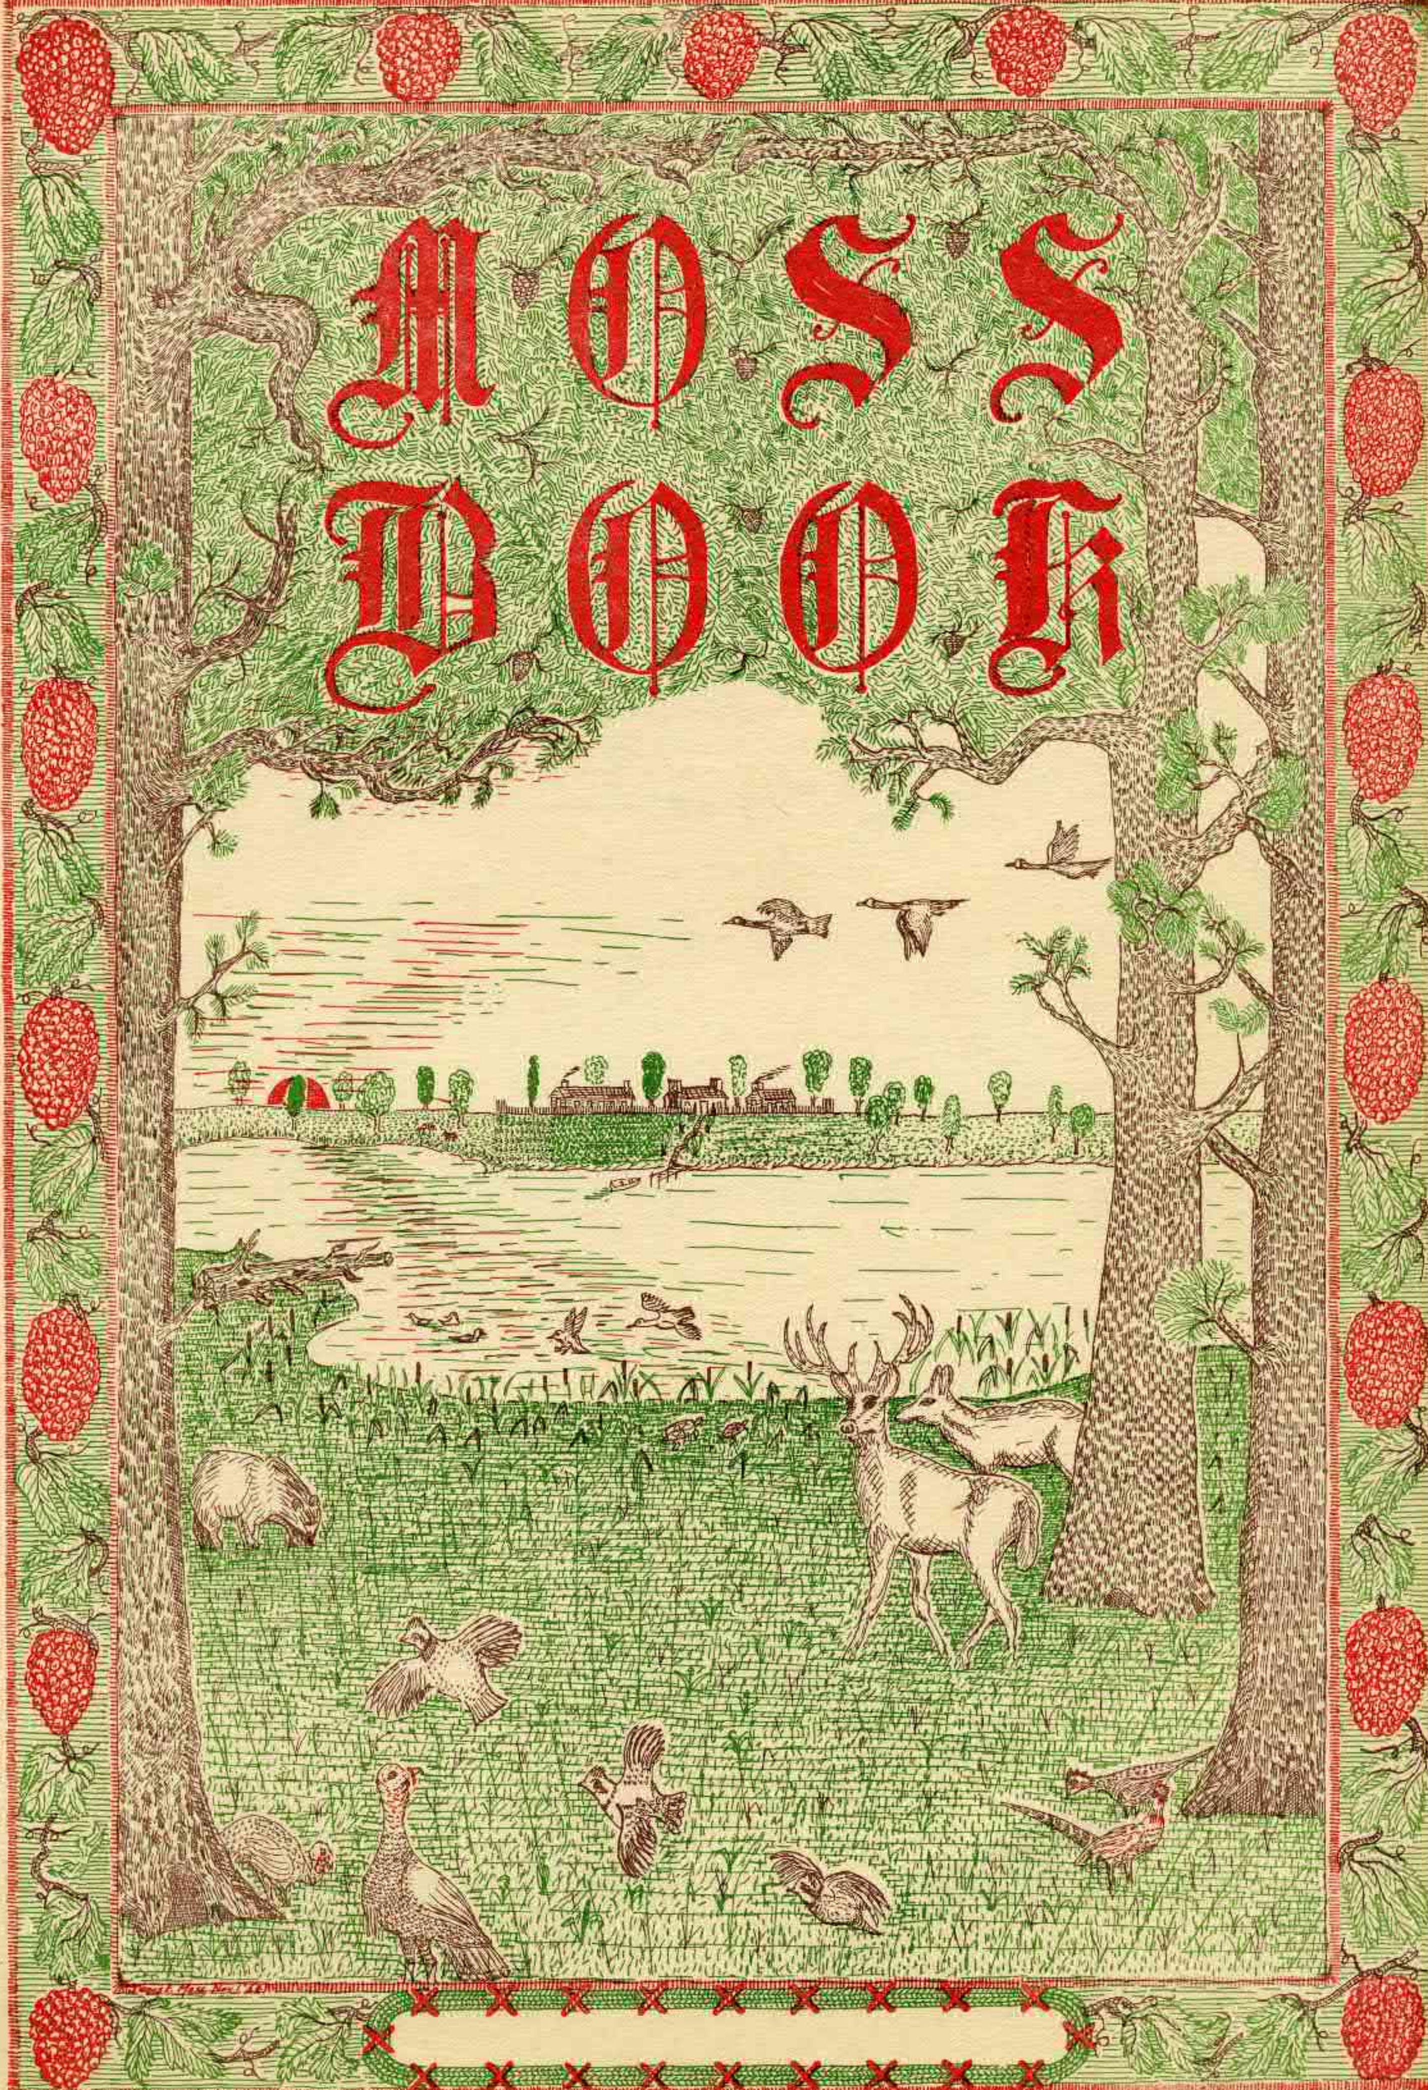

James E. Moss

"There may be, and there often is, indeed, a regard for ancestry which nourishes only a weak pride; as there is also a care for posterity, which only disguises an habitual avarice; or hides the workings of a low and groveling vanity. But there is also a moral and philosophical respect for our ancestors which elevates the character and improves the heart. Next to the sense of religious duty and moral feeling I hardly know what should bear with stronger obligation on a liberal and enlightened mind, than a conciousness of alliance with excellence which is departed"——

MOSS BOOK
Ye PROLOGUE

Spring Valley
November 15, 1954.

There are probably fewer than a dozen famalies in America whose records, both private and public are so complete for so long a period as those of the descendents of Richard Mosse of Virginia and Maryland.

The preservation of these records was not entirely a matter of chance. The public records of Maryland did not suffer in the War Between the States as did the records of the deep South. The importance of the records of Maryland has always been appreciated by the state leaders and by the legislature, the historical socities and by many citizens.

The private (original) records of the Moss family start over two centuries ago (1734). They are remarkably complete and from them a detailed story of the family can be reconstructed. So complete are these records that family income for several years from several sources can be estimated during and after the Revolutionary war. There are pages of records of the births and deaths of slaves (none of whom were ever sold and many of whom were set free) There are detailed records of horses born, ships constructed and operated, commodity prices and most important of all: the vital statistics of the Moss family and related families.

We are in addition heavily indebted to those faithful mothers who for centuries have seen to it that the births, baptisms and marriages and burials in the family were duly recorded in the Parish registers. One of the earliest of these is to be found in the St. Margaret's Register (A.A.Co. Md.). It is the birth of Richard Moss III - 1687 Aug 16. Who but Richard's mother Elizabeth (Hammond) Moss, the daughter of Major General John Hammond, would have entered this date in the old register? The child was five years old when the entry was made for the churches were not authorized until 1692.

A very large part of this detailed family history is preserved in three journals which have come down to us from a father and his two sons who had the interest and took the time to record family events. These men were:

"4I" - James Moss 1747-1828.
"5T" - Robert Basil Moss 1796-1859.
"5V" - Hamilton Pike Moss 1800-1871.

In addition to these three journals there are several hundred other records some of which are parchments. These are now being mounted and will be turned over to a family committee for deposit in some safe place.

Nearly all of these records have accumulated since the time of Richard Moss III (3B) 1687-1768, and his 1st and 2nd wives - Jane Skidmore and Rachel Robeson. He and his brothers and sisters were orphans and this may be the reason why there are no original papers in the collection prior to this time - but there are, of course a large number of public colonial papers relating to the family prior to this period.

The earliest of these original family papers must have been kept at the main house at Skidmore plantation. They must have been moved from there later on to Coles Point (Hacketts Point) Plantation. This very early house at Hacketts Point was refered to as "Coles Quarter." It was directly in front of the present Hacketts house (to the North East) and on the shore of Mosses Pond or the "Goose Pond."

From here they must have been moved to the old house at Hacketts Point which stood about where the present house stands. A new house had been built on that sight in 1825 by John Weeden for his daughter Ruth Elizabeth who married Robert Basil Moss (5T). During all of this time additional records accumulated and not-withstanding leaking roofs, mice and insects of one kind or another all of the family records were preserved in that house up to the War Between the States.

Shortly after the war they escaped complete distruction by a miracle. Hacketts house burned to the ground, but the family records had been removed some years earlier by three women of the family. It happened this way: Sarah Elizabeth Moss (6J) married Alexander Hamilton Mountz in 1858. Mr Mountz died of typhoid two years later. A few years after this Mrs Mountz and her daughter moved to Annapolis to live and she took with her over half of the old papers. Sometime later the same Ruth (Weeden) Moss (5T) mentioned above moved from Hacketts Point to Burle's Banks plantation then owned by her son George Washington Moss. She took most of the remainder of the old papers with her. About 1875 Hacketts house burned and very little of anything was saved. There is no doubt whatever that the old family papers would all have been destroyed had they been in Hacketts house at the time of this disastrous fire.

Mrs Mountz papers came into the possession of Mr. Arthur Carter who married Mrs Mountz daughter Elizabeth Pamelia Mountz and he turned them over to me many years ago. Ruth (Weeden) Moss' papers came into the possession of her daughter-in-law Mary Josephine Parkinson (6R) who married George Washington Moss. She was devoted to these old records and fully appreciated their importance and interest for the family and she made very important contributions toward the reconstruction of the family history. Before her death she turned over to me most of the records taken from the Hacketts House by Ruth (Weeden) Moss.

Since receiving the two principal lots of these records in 1916-1920 I have received from time to time additional miscellaneous but very important records from various members of the family all of which have been added to the collection. Some of these records have been received during the past two years (1952-1954) There is no way of knowing whether other old records of the family are still outside this collection. To this collection of original family papers I have added photostats of all known public papers of consequence in the archives of the State of Maryland which relate to the family. In addition to these photostats I have added many old news papers, maps and similar items of the period.

The old papers in bad condition have been cleaned and repaired through the patience and skill of Mrs Clifton C. Moss (7M) and they are in process of being mounted on linen paper in large fiber board folders and this work should be completed in a few months. Thereafter the papers will be indexed and a copy of the index will be sent to holders of the MOSS BOOK.

The first section of the MOSS BOOK which I now send you is the register of births, baptisms, marriages and deaths disclosed by the private and public records relating to the Moss family. It will be noted that a page has been given to each family. The father and mother appear at the top of the page and their names are then repeated in the tabular section followed by the names of their children with particulars of consequence relating to them.

It will be noted that in the earlier families certain letters and numbers are given as references to support the facts as recorded. It will be of interest to stop a moment at this point to secure an understanding of these references and at the same time the great complications incident to reconstructing each of these early family groups and recording the sources.

Let us take as an example page 14 (page number is in the lower right corner of each page). This is the family of James Moss and Monica (Greenwell) Moss. Under births it is stated that James was born 1747 Aug. 25. Where did this date come from? To the right of the date appear two citations H1 and S55. They in turn refer to an index book which had to be prepared to record all of the information from many sources. In this index book, under the letter "H" have been accumulated all references to Moss births marriages and deaths found in Hamilton Pike Moss' journal. This is the first such reference — hence "H1." There is another reference to the same fact. It is S55. The letter "S" in the index book refers to the entries in the St. Margaret's Church Register relating to the Moss family. This particular one is the 55th such entry hence "S55"

The key to these references, i.e. the source of the particular reference as indicated by the letters is as follows:

D = Moss Family Records.
L = Maryland Records.
W = Moss Family Wills.
S = St. Margarets (A.A. Co. Md.) Parish Register.
M29, 32, 43 = Other Maryland Parish Registers.
M21 = Brumbaugh's Marriage Licenses of A.A. Co. Md.
J = Journal of James Moss (1747-1828)
B = Journal of Robert Basil Moss (1796-1859)
H = Journal of Hamilton Pike Moss (1800-1871)
R = Maryland Marriage References.
AC = " Inventories and Accounts and Orphans Bonds.
AL = " " " " (Land Office, Annap. Md.)
TP = " Testamentary Proceedings.
CR = " Chancery Records.
PC = " Provincial Court Records
ES = " Index of Early Settlers.
DB = " Debt. Books.
MR = " and U.S. Military Records

It will also be noted that each individual in the family has been assigned a key number so that he may be readily distinguished from others having the same name (there are about ten Elizabeth Mosses for example). Thus again in the case of James Moss on page 14 his key number is 4I. This indicates that he is of the 4th generation in America and in that generation his sequence number is "I" (that is to say, there were eight others ahead of him in the 4th generation.)

Where service to the colony, state or national government was performed a small flag has been shown opposite the name of the individual and also in the lower left corner of his page. The direct line of descent is indicated by a star (*) following the name of the man in the direct line. Thus these stars will be found following the names of Richard I, Richard II, Richard III, James and Robert Basil. From this point on there are three branches of the family established by his three sons, namely: James Edward, Robert Livingston and George Washington Moss.

In collecting more recent information on the family I have had the valued assistance of many distaff members. Their initials have been shown in the reference columns and the following list of names will disclose their identity and also provide me the opportunity to thank each of them on behalf of all of the family for their interest and assistance:

AC = Anna Marie Carter
AM = Adaline Everett Moss
BBM = Bessie Baden Moss
BJM = Betty Joyce Moss
DBW = Dorothy B. Ward
DN = Dorothy Louise Noble
EDC = Edith Drusilla Chairs
HLR = Helen Louise Ronci
JER = Jane Ellen Rusk
JM = James Ehlen Moss
EM = Ellen Elizabeth Moss
INM = Inez Natividad Moss
JRM = Janey Revell Moss
MCD = Margaret Cordelia Dowsett
MJW = Mary Joanna Waterman
MLH = Margaret Lee Heskett.
MM = Mary Elizabeth Moss
VIM = Virginia Iredell Moss
VLS = Virginia Louise Simmons.
MAJ = Mary Adelaide Jackson

Ten blank pages are included with this register. Insert them after your branch for your future records. Be sure to indicate who kept record. Perhaps at sometime in the distant future someone will have sufficient interest to republish the register with additions and corrections.

This concludes the explanation of the Register Section of the MOSS-BOOK. Some of you may wish to add to it by making studies of your own. There are no doubt many more records which have not been located.

I hope that you find these records interesting, that you will continue the entries for your family and that from your hands it will pass to others who, mindful of the generations which have gone before, will provide generations yet unborn with an unbroken record of their progenitors in America from the earliest times.

(1) In the first Indian Massacre in Virginia, March 22, 1622, in which 347 white settlers were killed, the name of Richard Mosse appears. It is suggested on incomplete evidence that he was a widower and the father of Richard Mosse (1615–1676) and that he had come to Virginia to establish a home planning thereafter to take a second wife and bring over the children.

The following statement will be found in Vol III, p 568 of the "Records of the Virginia Company" (1607–1622):

"Here following is set downe a true list of the names of all those that were massacred by the treachery of the Savages in VIRGINIA the 22 March (1622), To the end that their lawful heyres may take speedy order for the inheriting of their lands and estates there: For which the Honourable Company of Virginia are ready to do them all right and favor. ——"

So far little is known of Alice and Ellen. Robert Mosse 3F, in his will (W4) mentions Ralph son of Alice Coley and it is possible this refers to Alice who may have married a Coale. Ralph Mosse, 2C, mentions his couzen Wm. Pennington.

Jas Orrick, 2a, mar. Mary Eagle (OF3,4) and we have the complete Orrick Geneology (OF8) but our records go back one generation further and we know a little about Eliz. Orrick's husband which Emily Lantz did not know.

Since Ri. Mosse must have married the widow Orrick in 1658 (L13) we conclude that his first child Eliz. was born about 1659. Jas Orrick, 2nd, was the "orphant" who is mentioned in L13 and he was raised by his step father Richard Mosse.

Richard Mosse came to Virginia from England sailing Aug 10, 1635 on the ship "Safety". He came to Maryland from Virginia Dec 1, 1649 in the first group to settle on the Severn.

Note that this generation spelled name Mosse about half of the time and Moss at other times.
It is believed that Elizabeth Moss (3A) was the oldest child because when Orphan's bond was executed by Thos. Cockey & Thomas Homewood in 1707 (AC-1) Eliz. had been mar. 5 yrs. and she was not mentioned in the bond yet she was living (d. 1763). Since Richard III was b. 1687 Eliz was probably born c. 1685 and from this it is estimated that Richard II & Eliz. Hammond were mar. about 1684. Ann Cockey (3e) mar. Thos. John Hammond, b1697 d1767 Mar

Eliz. Moss (3A) mar. Robt Boone (1680 – 1759 Feb. 9) and the Boone Family of A.A. Co all stem from this couple. For history of Boone Family see M18. ✠ James Moss (3C) was apparently single. He was, with John Boone, a "Tobacco Burner" of Magothy Hundred and we have his certificate dated 1734 – the oldest original paper in the family. "Tobacco Burners" were Colonial Officials who destroyed surplus crops just as was done in 1934. It was also tried in 1661 and 1619 -- and it failed each time! ✠ It is believed that Sarah Moss (3D) mar. Samuel Wright who died in 1734-43 making Robt. Boone his executor. But Robt. renounced his rights in favor of Sarah. Many years later James Moss (4 I) administered the estate of Walter Wright-1777-D11.

Robt. Boone (3A) was the only son of Capt. Humphrey Boone and Rebecca (Burle) Boone. Rebecca was the orphan dau. of Robt. and Mary Burle. Robt. Burle came to the Severn from Va. in 1649/50 and patented "Burle's Banks" so closely associated with the Moss family on June 15, 1650. This was first land surveyed in Anne Arundel Co. and Robt. Burle was first county Surveyor. He was also a tobacco expert.

For the complete genealogy of the Boone Family in A.A. Co. see "Newman's "Anne Arundel Gentry" (M18) Pages 531-548. All Boones of A.A. Co descended from Robt. Boone and Elizabeth Moss -(3A)

Up to and including the Revolutionary War the Boone family furnished the following military officers: Captain Humphrey Boone (16__ -1709); Capt. Humphrey Boone II (1713-1766); Captain John Boone, Severn Batallion (1736-1808); Lieut. Stephen Boone Severn Battalion (1744-1791); Captain Charles Boone, Severn Batallion (1766-1811); ___ Burle Boone (1749-1785) aided cause in some capacity (M18) and married another Elizabeth Moss (See 5-J Moss family group.

Jane Skidmore was the dau. of Samuel Skidmore and by this marriage Skidmore Plantation came into possession of the Moss family. They thus owned it 18 years before purchasing Hacketts Point (1737). It has been most difficult to learn much of Rachel Robeson (Robesson, Robison, Robinson). The two Rachels given (S73, 74) are entirely too young to have married Ri. Moss (3B) yet either of them could have married Richard Moss (4B) who also married a Rachel ——. The wives of 3B (2nd marriage) 4B and 4E are not too clear. At present it is believed that 4A and 4H died young.

Hampton Moss was no doubt named for Richard Hampton who was related in some way to Rachel Robeson to whom in 1749 he left a still. It is possible that this name Hampton may have been the origin of the name Hamilton used in the next generations.

It is traditional in the Moss family that three of the above brothers were killed in a massacre in San Domingo by a slave uprising while they were trading there by ship.

Apparently Sarah did not marry. It is possible that Thomas (5C) married Eve — for in Md Archives, Vol. 43 Page 227 the authorities in Annapolis are ordered to issue rations to soldiers wives one of whom was Eve Moss. Since Thomas Moss (5C) was the only one of that name then serving in Revolutionary Army from A.A.Co. it could have been Thomas' wife.

Hamilton Pike Moss' 2nd Journal says "departed this life Thomas Moss 1830." We have a will for Thomas Moss made 1776 and probated 1783. These must therefore refer to two different people. The difficulty with the 'Rachels' is refered to in a note for family group - 3B.

(1) It has so far (1953) proven impossible to establish definitely the name of the wife of Samuel Skidmore Moss. It is probable that she was either a Warfield, Worthington, or Hammond. See Charles Worthington who mar. Hamutel Hammond (M18, 309, 343) and who by 2nd wife had Eliz Worthington.

The daughter, Hamutel Moss presents a problem: In "AL-19" Elizabeth, the widow of Samuel Skidmore Moss (4E) states that in 1768 she had only two children, Samuel and Elizabeth but S57 states that Hamutel is dau. of Samuel and Elizabeth and that Hamutel Lamb supposedly her daughter was born in 1770. Elizabeth may have intended to say "two minor children."

John A. Merriken (1)	H1	1803 May 8	J43							

(1) This is the John A Merriken who wrote the interesting and beautifully composed letters to Robert Basil Moss many of which we have. He married in Alabama near Huntsville and raised a family there. I have tried but failed to locate his children there. He mar. Maria ___ and in one of his letters (which see) he names his children. He also lived neare Village Springs, Alabama. H.P. Moss Journal (H56) says Dr. Zack Merriken died at 'Maidstone' - "which he inherited from his mother."
(2) See family "4F". He was commissioned Ensign in Maryland Line in 1781. He was later made Capt. Note that he was son of Capt. John Merriken and Elizabeth Moss and that he was Capt. John Merriken and married Elizabeth Moss!!!. These two Elizabeths were from widely seperated branches of the family however.

Journal of H.P. Moss says: "1823 Mar. 10th died Charlotte Elizabeth Ann Brice the daughter of James Moss, Sr. and was buried at Annapolis, 30 years" On marriage license her name is given as Charlotte Elizabeth Ann Moss but her father and brother (Jas. and Robt. David) called her Charlotte Lee. They are both buried in St. Annes Cemetary Annapolis.
They gave the stone font to St. Margarets Church, A.A. Co. Our family letter II-59 relates to them. It was said that when her father learned that Charlotte Eliz. Ann planned to marry Edmond Brice he threw an oil painting of her out into the yard. The letter (II-59) refers to the return of this picture by a member of the Brice family.
